## Green Facility Statement

The Cobo Center commitment to environmental stewardship in our community is demonstrated by our continuous efforts to investigate, validate and implement new and innovative Green initiatives throughout the facility, and by our programs designed to educate our employees, vendors, customers, partners and visitors in the importance of the sustainability of our environment.

### Current Cobo Center Green Practices

- The Cobo Center Green Committee meets several times monthly to promote sustainability practices and Green initiatives, and has members from every department and in-house contracting company.
- The glass-enclosed Concourse area on the main level and the third floor corridor glass ceiling provide enough natural light during daytime hours to minimize main hallway daytime lighting throughout Cobo Center.
- Induction lighting is currently being installed in the Cobo Center with an expected 40% reduction in electric usage for lighting.
- Cobo Center is air conditioned by pumping grey water from the Detroit River through chillers that then send the cool water to various air handlers, providing cooling to zoned areas in the Center. This system uses considerably less electricity than conventional air conditioning units.
- All main hall lighting and heat/cool settings are computer programmed and managed.
- Paper, aluminum can and plastic bottle recycling containers are placed in all office areas and high traffic meeting areas throughout the Center for aggressive recycling.
- Escalators in the building are being replaced with energy efficient, Kone EcoMod units. All escalators run based on occupancy and event needs.
- All in-house contractors participate in Center recycling and Green initiatives.
- The current Cobo Center \$299 million facility upgrade scheduled for completion in 2014 plans to incorporate numerous green building components.
- The Cobo Center housekeeping staff uses products that are environmentally safe and non-toxic.
- All pallets are recycled to a local area vendor.
- Centerplate, the Cobo Center exclusive food and beverage contractor collects prepared food that has not been served for pick up by Forgotten Harvest, a local company that delivers the food to pantries, soup kitchens and shelters throughout Southeastern Michigan.

This form must be signed and returned no later than 10 days prior to the first move-in day of the event, regardless if you will be using our services or not. Complying with this will help expedite move in.

***LIMITATIONS OF CONVENTION & SHOW SERVICES, INC. LIABILITY AND RESPONSIBILITY***

Convention & Show Services, Inc. shall be referred to as CSS below.

- a. CSS shall not be responsible for damage to uncrated materials; materials improperly packed, or concealed damage.
- b. CSS shall not be responsible for loss, damage, theft, or disappearance of exhibitor's materials after same have been delivered to exhibitor's booth and left unattended.
- c. CSS shall not be responsible for loss, damage, theft, or disappearance of materials before they are picked up from exhibitor's booth for re-loading after show. Bills of lading covering outgoing shipments, which are furnished to CSS by exhibitors, will be checked at time of actual pickup from booth and corrections made where discrepancies occur.
- d. CSS shall not be responsible for any loss, damage, or delay due to fire, acts of God, strikes, lockouts, or work stoppages of any kind, or to any cause beyond its control.
- e. CSS' liability shall be limited to the physical loss or damage to the specific article which is lost or damaged and in any event CSS' maximum liability shall be limited to \$.30 per pound per article with a maximum liability of \$50.00 per item and \$1,000.00 per shipment, whichever is less.
- f. CSS shall not be liable to any extent whatsoever for any actual, potential, or assumed loss of profits or revenues, or for any collateral cost, which may result from any loss or damage to an exhibitor's material which may make it impossible or impractical to exhibit same.
- g. The consignment or delivery of a shipment to CSS by an exhibitor, or by any shipper to or on behalf of the exhibitor, shall be construed as an acceptance by such exhibitor (and/or other shipper) of the terms and conditions set forth in this bulletin.

**ORDER FOR DRAYAGE SERVICES**

We hereby authorize Convention & Show Services, Inc. to handle our shipment(s) in accordance with the information set forth above in the "Limits of Liability" section of this form and we further agree to the following:

- c. We agree that CSS' liability shall be limited to any loss or damage which results solely from CSS' negligence in the actual physical handling of the items comprising our shipment(s), and not for any other type of loss or damage.
- d. With particular reference to subparagraphs b and c of the above, we agree, in connection with the receipts, handling, storage, and re-loading of our materials at the convention site (as distinct from CSS' warehouse). That CSS will provide its services as our agent, and not as bailee or shipper. If any employee of CSS shall sign a delivery receipt, bill of lading, or other documents, we agree that CSS will do so as our agent and we accept the responsibility therefore.
- Relative to outgoing shipments after the show, we recognize that there will be a lapse of time between the completion of packing and the actual pickup of our materials from our booth for loading onto a carrier, and that during such time our shipment will be left unattended in our booth. We agree that CSS shall not be responsible for any loss or damage during such period, and we authorize CSS to adjust the quantities of items on any bill of lading left by us with CSS to conform to the actual count of such items in the booth at the time of pickup.
- e. We agree, in the event of a dispute with CSS relative to any loss or damage to any of our materials or equipment, that we will not withhold payment of any amount due to CSS for drayage or any other services provided by CSS as an offset against the amount of the alleged loss or damage. Instead, we agree to pay CSS within 30 days from the close of the event for all such charges, and we further agree that any claim we may have against CSS shall be pursued independently by us as a completely separate transaction to be resolved on its own merits.
- f. In order to expedite removal of materials, CSS shall have authority to change designated carriers; if such do not pick up on time. Where no disposition is made, materials will be taken to CSS' warehouse awaiting exhibitors shipping instructions, and charged accordingly.

## COBO CENTER FIRE REGULATIONS

Show management, contractors and exhibitors must comply with all fire regulations of the City of Detroit. Particular rules governing use of compressed gases and other special circumstances will be made available upon request. Fire extinguishers are provided in a limited number by the Building. If Fire Marshal requires additional extinguishers on show floor, these may be signed for and obtained from the Building, if available, at nominal cost or must be provided by show management.

Show Management and Exhibitors will be required to comply at their own expense with all applicable Federal and State Laws; Municipal Ordinances; and Health, Safety and Fire Ordinances. In particular, attention is called to the more significant legal requirements which follow. These items are paraphrased and do not serve to relieve Show Management or Exhibitors of their obligation to inform themselves of the full content of the pertinent statutes. Except as otherwise provided by special rulings from the Detroit Fire Marshal, regulations of the Detroit Fire Department will prevail as follows:

- A. The area in front of all buildings and all exits must be maintained free of parking or storage.
- B. All exits must be maintained readily accessible at all times.
- C. All aisle ways to exits shall be maintained free and clear at all times. Aisle ways to exits shall not be blocked at any time by tables, chairs, benches or other obstructions.
- D. All draperies, backdrops, bunting and other decorations must be flame-proofed. All paper and other flimsy materials used for decorative purposes, including flame-proofed paper are prohibited. The use of a heavy cardboard shall be permitted in limited amounts.
- E. Cut trees, branches and shrubs are prohibited; unless maintained in soil in a natural state.
- F. The use of liquefied petroleum gases shall not be permitted unless approved by Fire Marshal.
- G. All vehicles and combustion operated machinery being exhibited shall contain a minimum amount of gasoline (approximately two (2) gallons maximum) and shall further be equipped with locking gas caps. After the vehicle/machinery is placed in its display position, batteries shall be disconnected, gas caps locked, and the keys to same retained in either the Show Management or Building Management Office.
- H. The use of open flame or the storage and handling of flammable liquids, chemicals or harmful hazardous substances are prohibited, unless approved by the Fire Marshal or applicable agency.
- I. Combustible crates and packing boxes must be removed after setup period to a proper storage area.
- J. Additional fire extinguishing equipment as determined by the Fire Marshal must be located throughout the area occupied by Permittee at the Permittee's expense.
- K. All fire extinguishing equipment must be unobstructed and accessible at all times.

### Double-deck Booths/Smoke Detectors

All double-deck booths or structures with closed solid ceiling booths must have hardwired electric powered smoke detectors. Electrically powered smoke detectors with a backup battery power source must be hardwired to a circuit that is powered 24 hours per day must be installed in the ceiling of all multi-level booths and all rooms or storage areas that have ceilings. *One (1) smoke detector must be installed for no more than 900 square feet of continuous ceiling.* The placement of smoke detectors must be 30 feet on center. Please be sure to advise Cobo's electrical contractor that you will need 24-hour circuits when placing your electrical order. In cases where a double-deck booth blocks building fire pull stations or strobe lights, additional approvals and measures to rectify such blockage of fire safety systems may be necessary.

### Natural Gas Hook-ups

All requests for natural gas hook-ups must be submitted to the Cobo Center Event Services Department. Cobo Center will then forward these requests to the Fire Marshal for approval. *NOTE: Natural gas is not available in all of the Cobo Center exhibit areas.*

### Toxic/Hazardous Materials

All toxic and hazardous materials, gases, liquids or solids, are and remain the property of the show or the exhibitor bringing such materials onto Cobo Center property. Use of these materials may require additional insurance coverage. At least 45 days in advance of event move-in, the Event Services Manager must be advised of toxic and hazardous materials being brought to the building. Information needed is: Chemical name of material, trade name of material, hazardous component, flammability, date of arrival, place of storage, how contained, size and number of containers, exhibitor name and booth number, description of use, date of removal, how and by whom to be removed, contact person at supplying company, contact person at Cobo Center. A data sheet is to be in each booth and given to Fire Marshal for each material.

Above information will be reviewed by building staff, the Fire Marshal, and other regulatory agencies. Any specific instructions on storage, use, disposal or removal must be followed. Toxic or hazardous materials are subject to immediate removal from premises if required information is not received or instructions are not followed. All costs associated with safe handling of these materials are to be borne by show management.

By end of the move-out period all toxic and hazardous material must be removed from the Cobo Center premises. Materials are not to be left behind after exhibitor(s), show management and contractor have left the premises. Responsibility for verifying actual removal of materials from the property rests with show management. Should any materials be left and Cobo Center therefore be forced to have the materials removed, costs for such removal including containers, material testing, transportation, disposal, and any other related costs, plus a twenty-five percent (25%) nonperformance penalty charge, will be billed to show management.

## Make Your Mark!

Whether your message is large or small, the Convention & Show Services design team can assist you with communicating your message visually. This is achieved by using the latest technology, a high level of detail, and an in-depth knowledge of our environment.

The Convention & Show Services design team supports most digital artwork files allowing us to create signage of any size and on any medium. Please refer to the Digital File Preparation page for more detail and submission info.

Graphics are printed and mounted using high quality material to provide durable pieces that can be preserved for future use, allowing you to save cost and production time. Here is just a small selection of the products we offer:

Meterboard Signage

Pull-up Banners

Foamcore Signage

Vinyl & Fabric Banners

Window Clings

22 x 28 Signage

... and much more! Contact a CSS Sales Representative today to discuss the many possibilities and ideas to increase your brand's presence!

## DIGITAL FILE PREPARATION

### AVOIDING ADDITIONAL COSTS:

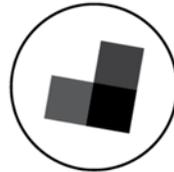

Files obtained from the Internet (JPG, GIF, PNG) or artwork created in MS Office applications (Word, Excel, PowerPoint, etc.) are often not suitable for high quality output, and require additional hourly charges. Artwork should be created at actual size; however for larger files, such as banner art work, files can be scaled down to accommodate the limits of the software. Scan should be no smaller than 300dpi at half size. To avoid additional costs associated with these file types, please supply files as defined herein.

### Vector Artwork

For the best quality, create graphics in vector format (AI or vector EPS). Logos taken from websites are generally GIF files, and those are not acceptable as they will not print clearly.

Artwork produced in vinyl, such as solid company logos or text must be supplied in a vector format (AI or vector EPS). Art work created in pixel format (TIFF or JPG) is not suitable because the vinyl plotter cannot interpret raster images.

### Bitmap/Raster Artwork

**TIFF and PSD** – These are the preferred file format for raster images. Files should be supplied at least 150dpi at full size, or they should scale to those dimensions. If the resolution is lower than 150dpi, images can look blurry or pixelated when printed. If there is a lot of small text in the raster image, the file can be provided at higher resolutions to ensure print quality.

**JPEG** – We can use JPEG files, but because JPEGs use file compression this can sometimes affect image quality. Therefore, this type should only be used if the files are being emailed.

**PDF** – These are print files only and cannot be altered to fit different sizes, artwork must be setup at the correct proportion and print-ready quality. Ensure images are saved at high resolution (at least 150dpi at final size).

Preferred Program and File List	
Adobe Illustrator	.ai or .eps
Adobe InDesign	.psd, .tif (LZW), .jpg (HQ)
Adobe Photoshop	.indd (Embed All Links)
Adobe Acrobat	.pdf (Press Quality Setting)
*Please submit all adobe files in CS6 version.
